TACT2 program

Therapeutic Aggression Control Techniques is a comprehensive crisis intervention program designed to help staff develop the skills and judgment to:

- (1) Distinguish between true emotional crisis and functional, deliberate misbehavior.
- (2) Avoid power struggles and anger traps.
- (3) Better understand trauma-related behavior.
- (4) Skillfully de-escalate emotional issues.
- (5) Effectively manage deliberate misbehavior.
- (6) Safely control dangerous situations.

“This is the best crisis intervention model I have ever seen. The content is concise and easily delivered. Its practicality and trauma sensitivity are superior to all the other courses I have taken.”

Chris Moynihan, Director of Clinical Services,
Nashville, TN
