TACT-2 program

Therapeutic Aggression Control Techniques is a comprehensive crisis intervention program designed to help staff develop the skills and judgment to:

- (1) Distinguish between true emotional crisis and simple deliberate misbehavior.
- (2) Avoid power struggles and anger traps.
- (3) Better understand trauma-related behavior.
- (4) Skillfully de-escalate emotional issues.
- (5) Calmly manage deliberate problems.
- (6) Safely control dangerous situations.

"The program was well presented, fast paced, comprehensive and thorough. The verbal skills are necessary for any educator, administrator or clinician working in any school."
