Description:

CIU 20 Principal Symposiums are quarterly networking meetings where the region's school leaders have an opportunity to garner important information on the latest initiatives and mandates. This time is also an opportunity for public and nonpublic school principals to collaborate by participating in a professional learning community. We discuss issues and share ideas in order to improve overall teaching and learning as well as help ease the daily stresses of this fast paced, demanding educational climate.

Learner Outcomes:

Participants will:

- Acquire updates on important educational initiatives
- Have the opportunity to share and discuss important educational issues that are impacting schools and districts
