Description:
Using QR Codes and Web 2.0 Tools increases instructional effectiveness by enabling the teacher to transform traditional lessons into engaging, collaborative lessons that promote student learning. In this session, participants will learn how to create their own unique QR Codes effectively in the classroom, and how to integrate Web 2.0 tools to create a student-centered classroom. Integrating Web 2.0 tools into classroom instruction provides revolutionary new ways of creating, collaborating, editing and sharing user-generated content online. Padlet, Infuse Learning, and a few more free Web 2.0 resources will be explored during the workshop. Please bring a smartphone or other mobile device that has a camera and can connect to the internet to fully participate in this session.

Learner Outcomes:
Participants will be able to:

- Create their own QR Codes to use in the classroom.
- Integrate Web 2.0 tools into classroom instruction.
- Explore instructional technology resources that can be taken back to their classroom.

Register:
CPETracker members may register at www.cpetracker.org. For additional information, please contact Gretchen Stoudt at gstoudt@ciu20.org or 610-515-6506. Registration deadline is February 12, 2014.

Don’t have a CPETracker account? Please fill out the NonCPETracker registration form located under the Professional Development section of our website, www.ciu20.org. There will be an additional $20 administrative fee for NonCPETracker members requesting Act 48 hours. Form and applicable payment should be mailed to: CIU 20, 6 Danforth Drive, Easton, PA 18045.

Participants must unregister two weeks prior to event to receive a full refund. Please view our full cancellation policy under the Professional Development section on our website, www.ciu20.org.
